

Voice to the Village

Reaching Villages with the Message of Hope

Emmonak & Alakanuk

For 2 weeks this spring I traveled to Western Alaska to the villages of Emmonak and Alakanuk. A team of men from Abundant Life Assembly of God in Sterling, Alaska arrived on site the first week to complete remodel work on the parsonage in Emmonak. The team laid new floor-

ing in the parsonage and painted both the parsonage and sanctuary. During the second week, Pastor Jimmy and Maggie Okitkun from Kotlik, traveled to Emmonak. On Sunday morning we traveled via

snowmachine to Alakanuk to be with Pastor Marvin Paul and his congregation. We had a great time of ministry and fellowship. While in Emmonak and Alakanuk, I worked on recording a missions training video, with the help of Jimmy, Maggie and Marvin.

Networking Summit

I had the privilege of attending the

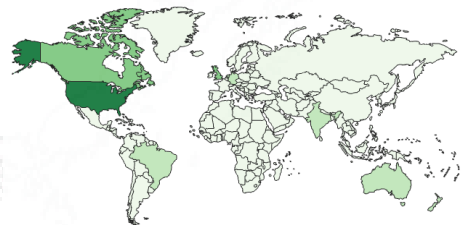

Alaska Missions Networking Summit @ Victory Bible Camp. We were

told this was the first time that this many Missions Sending Agency's, Missionaries and Para-church organizations had ever gathered to discuss Missions. It was great to connect with others and get the pulse of what is going on with the "big picture" of Missions in Alaska. I'm looking forward to partnering together with fellow workers in the harvest to advance the Kingdom of God.

Live WebCasting

Since our last newsletter, we have added additional churches on-line and are continually busy with live webcasts. So far this year we

have had 8755 computers from 36 countries connected to live services and special events from Alaska. The target is our back yard "Bush" Alaska but, we are reaching around the world.

AK Trail Ministry

We were involved in several Dog Sled races and Snow Machine events this past year. I'm excited to

report a new opportunity coming up next Jan-Feb. I have filed an application to travel the Iditarod trail in 2013. While on the trail, the group I will be traveling with will stop in each village to conduct school assemblies. With the cold temperatures during this event, I will be required to have some additional gear. Let me know if you'd like to invest!

U.S. Missions National Rep.

We have received appointment as National Field Representative for Alaska with the US Missions Intercultural Department.

I'm humbled and honored to serve as liaison for US Missions Intercultural Director Malcolm Burleigh. Giving support to our US Missionaries in the area of missionary care and representing Alaska on the National level.
