Greetings from the Hull's,

This summer has kept us extremely busy with camp, moving out of the motor home and raising the remaining monthly support. June 1, crossing into the border of Alaska, sometime after midnight, our transmission shelled out of the motor home. After having it towed into Anchorage, we were blessed that South Anchorage Assembly allowed us to park it at their place until we returned from Camp AN.

Terry left for Emmonak on June 6 to prepare the boat, receive supplies and begin hauling everything 17 miles up river to the camp before the construction crew arrived.

Campers this year came from Emmonak, Alakanuk, Kotlik, St. Michael, Nome and Kotzebue.

This year we noticed that kids were more willing to share their feelings with us. They would sit and talk, instead of running off to play during free time. At the end of camp we had kid's who were not ready to leave. They fussed with each other to see who could stay until the last boat ride out.

The evening before we flew out several kids stayed up all night so they could see us off. I noticed they told us "I'll see you later" instead of "goodbye". In the weeks following, we've received calls and letters from the campers, some just asking what we are doing, others asking for advice and making sure that we are still available for them.

Itineration Update-

We currently have reached an allowable minimal budget amount. Plans are to begin working with churches on Voice to the Village projects, and continue raising our support base to a greater level over time. We appreciate and are thankful to the churches who have us on their "to be added for support list of missionaries."

Blessings to all...
